

What Teachers Say About BrightWays...

“Once parents are trained on using the system, they are able to complete the ILPs and Progress Reports without any assistance, which saves me a LOT of time.”

“I like that contact information, log notes, enrollment information, and historical grades are so easily accessible...right at my fingertips.”

“I love that you can easily access a list of what documents are waiting for teacher approval, and which ones have not even been started by the parent.”

“It is so nice to have an area on the progress report that shows I have received an appropriate work sample, and the parent can see that. If I have not received a work sample (online or through the mail) for a particular subject, the parent can also see that in the system.”

“It is so wonderful to be able to talk with a parent over the phone and be looking and working on the same page in their student’s ILP or PR at the same time.”

What Parents Say About BrightWays...

“I love the [BrightWays] site and its easy access! It is a great help and encouragement to me.”

“I appreciate the higher level of computer-based communication and documentation that you have.”

“The on-line ILP system is very convenient and easy to use. The option to select objectives above and below grade level is fantastic and very flexible.”

BrightWays Learning Systems™ puts you one step ahead for giving your program the ability to track, schedule and monitor progress toward mastery of state education standards. We can also develop custom features for a more refined fit to your particular program.

Online parent curriculum ordering request and inventory module will be added and integrated into the system. Contact us for details.

Lead A Distance Education Program
that Supports Student Success,
Satisfies Parents, and
Boosts Staff Efficiency

Quality Web-based Tools & Services for
Managing Distance Education Programs

www.BrightWaysLearning.com

Specifically designed for distance education programs, **Bright-Ways Learning Systems™** provides a powerful, easy-to-use, Web-based software to manage student information, create learning plans, track student progress, improve communications, and pull custom reports. Includes dynamic parent, teacher, & administrative portals, with convenient online access to current data.

Enrollment & Transcript Management

- Easily manage multiple student enrollments and status
- Streamlined input of transfer courses and historic credits
- Automated credit and graduation requirement tracking
- One-click transcript generation
- Transcript customization with watermark, graduation requirements, and other school-specific information

Standards-based Individual Learning Plans

- Course-by-course development of each student's Individual Learning Plan (ILP)
- Integrated Alaska GLEs and other curriculum standards
- Customizable course list, curriculum sources, and assessment types (as applicable)
- Curriculum map to organize standards-based coverage throughout the year
- Teachers can individually approve each course on an ILP or the entire ILP in one click.

Year	ID	Grade	ILP Status	Approved	Total
2008-09	50420	Grade 11			
		Course		Q1	Q2
		Career and Tech Ed — Adv. Bus. Computer App.		0.25	0.25
		English — American Literature		0.25	0.25
		English — Composition (c)		0.25	0.25
		English — Spanish II		0.25	0.25

Grades & Work Samples

- Term-based Progress Report forms automatically match Individual Learning Plan (ILP)
- Quick and easy grade input and skill-tracking
- Ability to upload Work Sample files and associate with specific course

Course	Credit	Mastery	Grade
Foreign Lang — Spanish I	0.25	Accepted	B+
Music — Perf. Music-String	0.25	Accepted	B+
Math — Algebra I	0.25	Accepted	B+

Basic Management & Security

- Variable role-based and task-specific access (administration, staff, teachers, parents)
- Multiple program management capabilities
- Collect and manage family and student contact information and demographics
- Multiple Log Note types with automated author and date stamps; Log Report compiles all log entries (by student) into a single report; Tracks “last contact” date by teacher for family and student
- Integrated new enrollment form and easy re-enrollment
- Encrypted secure login access and daily data backups

Custom Query Tools for State & Other Reporting

- Collects and manages necessary data for state and federal reporting, including OASIS
- Ability to select data fields and specify variables for custom-query reports
- One-click data export to spreadsheet (csv) files
